

MUSIC HISTORY TIMELINE

A Game for the Piano Fallboard

This game is designed to support students learning music history. It's a quick and easy way to learn a little bit at a time and gives a jumping off point for further study. Included are **Composers**, **Historical Figures** and **Historical Events**.

ASSEMBLY: Print pages 2 - 5 single sided. Cut along the dotted lines and tape together on the short ends to create a long playing board. Print pages 6 - 9 and cut along the dotted lines to create small fact cards.

HOW TO USE: Cover the piano keys with the fallboard and place the playing board on top. Mix all the fact cards together and randomly choose some to place on the timeline in the correct places. Students can choose to learn more about individual fact cards during the week by finding facts etc.

The **PianoForte Method** is based on the principles of Moveable Do Solfa and a Singing Pianistic technique. It is a progressive method that helps students develop strong musicianship and aural skills which leads to easy understanding of musical notation.

Visit www.pianofortemethod.com to learn more about this revolutionary piano method and follow us on social media for loads of teaching ideas:
